

# Sarah Naas

Full-stack web developer with a love for creative coding and app development.

## EXPERIENCE

### Wild Earth, Berkeley, California

2021 - 2023

Software Engineer

- Integrated third-party services, including Yotpo and Intercom, enhancing platform functionality and improving the overall user experience of the website.
- Expanded and optimized the component library using Gutenberg and React, resulting in increased code reusability and accelerated feature development.
- Developed a feature facilitating a seamless transition from email interactions to the customer account, boosting user engagement and conversion rates.
- Transformed the API into a microservices-based system, optimizing scalability, reliability, and maintainability.
- Built an interactive quiz to assist users in selecting the right product, quantity, and delivery schedule, to increase sales and customer satisfaction.

### Freelance Front End Engineer

2020 - 2021

- As a dedicated full-time freelancer, I specialized in front-end development, delivering high-quality solutions and enhancing user experiences.

## EDUCATION

### UC Berkeley, Berkeley California

2019 - 2020

Full-stack web development bootcamp.

San Francisco, CA 94109

(707) 298-4675

[sjnaas@gmail.com](mailto:sjnaas@gmail.com)

## SKILLS
